NEWS RELEASE

Trew® Named Top Workplace by Employees for Second Consecutive Year

The award recognizes top companies in the Greater Cincinnati region based on employee feedback.

(West Chester, Ohio) – Trew, LLC, a leader in warehouse automation solutions has been recognized as a 2024 Top Workplaces Regional winner, receiving the award for the second consecutive year. Trew's team includes a wide range of roles that work together to create client value and deliver on time projects. Roles within the business include solutions development, project management, software, engineering, manufacturing, installation, sales, marketing, and other general corporate services.

"Trew has an environment where team members consistently go the extra mile to deliver exceptional service to our customers," said Alfred Rebello Trew Chief Executive Officer. We are thankful that our people that form the bedrock of the company and who continually strive for excellence have awarded this honor."

The Top Workplace Award is based entirely on employee feedback gathered by a third-party survey administered by Energage, LLC. The confidential survey uniquely measures fifteen culture drivers that are critical to success of any organization such as alignment, execution, and connection. The award highlights organizations that stood out among their peers, demonstrating a commitment to employee satisfaction, organizational excellence, and building a thriving workplace culture.

Trew won 2024 Cultural Excellence awards in the following categories:

- Innovation
- Purpose & Values
- Leadership
- Work-Life Flexibility
- Compensation & Benefits

Eric Rubino, Energage CEO, commented, "The Top Workplaces award is a badge of honor and something companies should be very proud to showcase. The people-first cultures they have built and nurtured will set them apart in a highly competitive market. These organizations represent the best of the best."

Trew was formed in January 2019 by warehouse automation veterans and has quickly become a solutions leader in the industry. The company is anchored in Cincinnati, with a diverse hybrid workforce and additional facilities in Milwaukee, Wisconsin and the greater Toronto, Canada area.

About Trew

Trew provides automated material handling solutions for integrators and end users, including Warehouse Execution Systems (WES), Warehouse Control Systems (WCS), PLC-based machine controls, sortation technology, motorized driven roller (MDR) and conventional conveyor systems, and services such as concepting, engineering, technical support, parts, field service, and training. Serving the North American retail, warehouse, distribution, manufacturing, and e-commerce industries, Trew's experienced staff and broad network of integrator partners enable uncommonly smart solutions scalable to any material handling needs.
