

## Parts Put Away

*Trew's field service technicians can assist with spare parts inventory and order accuracy.*

Trew understands time and resources are limited and freeing them up to for spare parts put away can be a challenge. Short cutting the part put away process can make them hard to find when you need them the most. Trew's experienced staff of field technicians can take on this responsibility, ensuring that parts are properly labeled and stored. The parts put away service provides inventory and order accuracy, organization, labeling, streamlined integration, discrepancy adjustments, and much more.

### Features & Benefits:

- Recording, tracking, and fulfilling orders to maintain precise inventory and order accuracy
- Assistance with identifying and labeling parts and parts enclosure organization
- Pre-loaded inventory sheets for ERP and CMMS systems
- Trew's team will investigate and replace any discrepancies identified in the order
- Final documentation provided for customers to audit
- Customer Satisfaction – Our main priority, yours, and your customers

### About TREW

TREW provides automated material handling solutions for integrators and end users, including Warehouse Execution Systems (WES), Warehouse Control Systems (WCS), PLC-based machine controls, motorized driven roller (MDR) conveyor and services such as concepting, engineering, technical support, parts, field service and training.
