

# MDR SPIRAL

## Series 1500 ETO Conveyor Module

Controls Platform: G20 Full Control & H20 Auto Control

POWERED BY

**TREW**®

MDR spirals enable major elevation change in a small footprint. This allows height differences to be bridged while retaining a smooth flow of product. Built-in zero pressure accumulation (ZPA) and polyurethane sleeves on the rollers come standard. The modules are also reversible. Pre-wired modules can be networked with bus technology, which enables custom control and fully visible diagnostics. All electric operation ensures a consistent and quiet system that is easy to maintain.

- Up to 180FPM
- O-Band

Roller Set Low (RSL) configurations only

## KEY FEATURES AND BENEFITS

- Enable major elevation change in a small footprint.
- Light to medium weight applications up to 75lbs.
- Ships In Manageable Sections For Easy Transportation.
- Modular Design Allows For Easy Expansion.
- Resilient and durable construction. Perfect for distribution, warehouse, process lines and postal applications.
- Using durable, high tension 3/16" diameter O-bands.
- Minimum product size 8" x 8" x 0.75".
- Tool-less mounting brackets for control card components.
- Electrical components have quick connect terminals for easy installations and expansion.
- Operates in 40° - 104°F.
- IP54 Standard.
